CAREER OBJECTIVE

Enthusiastic Junior Developer and BS Software Engineering student currently in the final semester, with hands-on internship experience in web and mobile application development. Passionate about programming, software development, and problem-solving, and eager to apply academic knowledge and industry experience to real-world projects while contributing effectively to a dynamic development team.

PROFESSIONAL EXPERIENCE

Junior Developer Intern – Weiblocks

DHA Phase 6, Lahore | 3+ Months

- Worked on the Hagler project, contributing to frontend development using React.js.
- Developed and maintained frontend features for the Expensia project.
- Built cross-platform mobile applications using React Native with Expo for iOS and Android.
- Worked independently on mobile app development, implementing UI and application logic.
- Integrated REST APIs and followed version control best practices using Git and GitHub.
- Implemented Android native foreground services for background functionality.
